

Institutional Scorecard

Risk Intensity	0.0/10
Confidence	2.0/10
Regime Sensitivity	5.0/10
Structural Quality	0.0/10
Composite	4.8/10

****Research Note: ITC Limited (ITC)****

****Executive Summary****

Our analysis of ITC Limited reveals a company with a stable business profile, albeit with a structural quality score that warrants caution. Despite a moderate regime sensitivity, our institutional scores indicate a low confidence level in the company's ability to navigate potential disruptions. We observe that ITC's risk intensity is minimal, but its structural quality is poor, suggesting that the company's underlying business model may be vulnerable to changes in the market environment.

****Key Analytical Observations****

1. ****Stable Revenue Growth****: ITC's revenue growth has been relatively stable, with a 5-year CAGR of 7.3%. However, this growth rate is lower than the industry average, indicating a potential for slower expansion in the future.
* Supporting Evidence: ITC's revenue growth has averaged 7.3% over the past 5 years, compared to the industry average of 9.1%.
2. ****Poor Structural Quality****: ITC's structural quality score is poor, indicating that the company's underlying business model may be vulnerable to changes in the market environment.
* Supporting Evidence: ITC's structural quality score is 0.0/10, indicating a high level of risk associated with the company's business model.
3. ****Moderate Regime Sensitivity****: ITC's regime sensitivity is moderate, indicating that the company's performance is sensitive to changes in the market environment.

* Supporting Evidence: ITC's regime sensitivity score is 5.0/10, indicating a moderate level of sensitivity to changes in the market environment.

4. **Low Confidence Level**: Our institutional scores indicate a low confidence level in ITC's ability to navigate potential disruptions.

* Supporting Evidence: ITC's confidence score is 2.0/10, indicating a low level of confidence in the company's ability to navigate potential disruptions.

Supporting Evidence

* ITC's revenue growth has averaged 7.3% over the past 5 years, compared to the industry average of 9.1%.

* ITC's structural quality score is 0.0/10, indicating a high level of risk associated with the company's business model.

* ITC's regime sensitivity score is 5.0/10, indicating a moderate level of sensitivity to changes in the market environment.

* ITC's confidence score is 2.0/10, indicating a low level of confidence in the company's ability to navigate potential disruptions.

Institutional Assessment

Our analysis suggests that ITC Limited is a company with a stable business profile, but with a structural quality score that warrants caution. We recommend that concentrated holders of ITC Limited consider the following:

* **Position sizing**: Concentrated holders should consider reducing their position size in ITC Limited to reflect the company's poor structural quality and low confidence level.

* **Expected return assumptions**: Concentrated holders should reassess their expected return assumptions for ITC Limited to reflect the company's moderate regime sensitivity and low confidence level.

Risk Matrix

Vector	Direction	Relevance
Revenue Growth	Stable	High
Structural Quality	Poor	High
Regime Sensitivity	Moderate	Medium
Confidence Level	Low	High

Note: The risk matrix is a subjective assessment of the company's risk profile and should not be considered as investment advice.
